\$2 per year, single copy 5c

The
PALACE THEATRE AND
Saturday, Jan. 29th

NEW LIBERAL M.P.
William Duff, former Deputy-Speaker of Federal Parliament, who was the successful Liberal candidate in the Antigonish-Guysboro by-election, to succeed the late Hon. J. C. Douglas (Conservative).

Local and General Briefs.

A whist drive and dance will be held in the I.O.O.F. hall on Saturday, January 29th, commencing at 7.30 p.m. Lunch will be served. Everybody welcome.

The theatre-going public of Coleman turned out in large numbers last Saturday and thoroughly enjoyed "The Black Pirate" shown at the Palace and Grand Theatres. The high-class pictures being shown at the local picture houses recently well merits this support on the part of the public.

Mr. D. O. Macko, of Stanford University, Palo Alto, Cal., has recently been added to the staff of the International Coal & Coke Co., Colemap. Mr. Macko enjoys a very high reputation as a pictorial photographer, having been awarded a number of prizes for his work in this line, and is a member of the California Camera Club, San Francisco. Pictorialism is Mr. Macko's hobby, and now that he is a resident in the North, he will be in a position to snap many pictures here that he could not get in the Sunny South.

St. Valentine's Tea and Parcel Sale
The Ladies Auxiliary of the St. Paul's United Church, will hold a St. Valentine Tea and Parcel Sale in the Club room on Monday, February 14th, from 2.30 p.m. to 5.30 p.m.

To Acquire More Elevators
The Alberta Wheat Pool announces that it will build or acquire at least one hundred elevators in Alberta during the present year, for which they will pay more than a million and a quarter dollars. At present the pool owns and operates forty-two elevators throughout Alberta.

The three nights of magic and vaudeville show put on by Bert Johnston in the Grand Theatre, Coleman, commencing Monday of this week, was quite an interesting mid-winter event. Mr. Johnston undoubtedly has charm and skill and leaves never a dull moment. His assistants were all good and the question reading and answering, by Muriel, has created much speculation, fun and wonderment.

The Cranbrook Courier under the heading of "Seen on the Street" has this rather good one: "Fannie curlier: 'Point me the way to the curling rink, laddie.' Cranbrook laddie: 'Go down to the liquor store and follow the well beaten trail through the bush.'"

Read the corner ads on the front page weekly for the week-end program at the Palace and Grand.

Rock Dusting In Alberta Mines

EDMONTON, Jan. 24. — Rock dusting is to be introduced into the bituminous coal mines in Alberta, and regulations governing its use are now being prepared by the government mines branch. The new method will be applicable to the mines in the Nordegg, Cammore and Crow's Nest fields, but will not be adopted in any of the lignite fields, since the coal dust in the latter is not of the explosive kind. Lethbridge and Taber fields therefore are not to be included.

Spreading rock dust in entries and roadways is the modern way of preventing explosions in bituminous coal mines and is extensively followed in England and the United States. The Alberta mines branch had purposed introducing it in this province before the Hillcrest disaster, and that event, with the Rice report advocating rock dusting, has served to confirm the government authorities in their plan.

Limestone will be used for grinding up a fine dust for the purpose, and the mines will be required to install equipment accordingly.

Leaving For Vulcan

Mr. Jack Downie, teller in the local branch of the Canadian Bank of Commerce, received word last week that he is shortly to be transferred to the bank's branch at Vulcan. Mr. H. M. Dafeo, of Youngstown, is taking Mr. Downie's place in Coleman. Jack's many friends in Coleman will be sorry to learn he is leaving here and he will be greatly missed by the Curling Club, of which organization he is secretary, and also by the local Elks lodge of which he has been a very active member since its inception here about a year and a half ago. Mr. Downie has the best wishes of a host of friends for every success in his new position at Vulcan.

Liberals Regain Nova Scotia Seat

In the by election last Tuesday to fill the vacancy in parliament for Antigonish and Guysboro, caused by the death of J. C. Douglas, conservative, Wm. Duff, liberal, received a majority exceeding 1100 over Neil R. McArthur, conservative. Practically complete unofficial returns give Duff 6389 votes, to McArthur 5284. It is a traditional liberal seat, and Douglas was the only conservative who had been able to carry there, only for 35 years. This will make the standing of parties in the house, as follows: Liberals, 117; conservatives, 90; U. F. A., 12; liberal progressive, 7; progressive, 5; labor, 3, and one vacancy.

The visit of Lieut. Colonel Sims on Wednesday, Jan. 19th, to the Salvation Army was a great success, over 200 children being present at the afternoon meeting. The Colonel kept the children interested as he illustrated to them "The Life of Christ" with picture and song. At 8 o'clock a good congregation turned out to listen to the Colonel's illustrated talk on "Pilgrims Progress," that immortal allegory written by John Bunyan in Bedford Jail.

The Alberta Wheat Pool is seeking to secure a lease on a Dominion Government terminal elevator at Vancouver. Negotiations were halted by the resignation of the Harbor Commission of that port. Opposition has developed to the government leasing one of its terminals to the Pool. Some Vancouver interests want the Pool to build its own terminal. This would cost about two million dollars.

"Over The Hill" Coming To Coleman, Tues., Feb. 1

"Over the Hill", the wonder picture of the age, that has easily outdistanced every other screen presentation in the matter of a continuous run in New York, will be seen at the Palace theatre on Tuesday, February 1st.

"Over the Hill" is an unusual picture. It does not depend upon the eternal triangle for its sustained interest. Nor require mob scenes to bolster up shortcomings in plot. There is something so sweet and wholesome and interesting in the story that the blasé New Yorker, so particular and discriminating in his choice of theatrical entertainment, has seen fit to give it his patronage and unqualified enthusiasm ever since it was first shown there in September, 1920.

Paul H. Sloane adapted the story from Will Carleton's "Farm Buds" and Harry Millarde directed it. William Fox, its producer, has supplied a corps of singularly competent players.

Illustrated Lecture

An illustrated lecture will be given in the Palace theatre on February 2nd, at 4.15 p.m. The lecturer is Mr. M. D. Geddes, of Calgary, and the subject of his lecture is "Mountain Climbing and the Wonders of the Rocky Mountains." Mr. Geddes is an enthusiastic member of the Alpine Club and is well informed on the subject of his lecture. Admission 10c.

United Church Notes

Trail Ranger Hockey

The Trail Rangers No. 1 team played at Bellevue on Saturday morning. The extreme cold was rather a disadvantage. For size, etc., the teams seemed a fair match. The game resulted in a win for Coleman, the score being 4-1. Bill Fraser and Bob Patterson were each responsible for two goals. So far the boys have won all their games.

The visit of Gordon Lapp to the local groups was in every way a success. There was almost a hundred per cent attendance. The club rooms were warm and the supper was in the banquet class. The new provincial leader was welcomed and he introduced several new songs and stunts and told of his visit to Finland last year to a world conference on Boys Work. The mothers and friends who helped with supplies did excellently and the work of the girl teachers from the Sunday School along with Mrs. Bevan, in looking after the tables and serving, was a real asset, to say nothing of cleaning up afterwards.

For various reasons, good and bad, the topic announced for last Sunday evening was not dealt with. It will be taken up however this coming Sunday when the "Religion and Poetry of Robert Burns" will be discussed. There should be no empty seats.

Is Having Successful Sale

The Journal last week and printed several hundred full sheet sale bills for Chas. Nicholas' big annual reduction sale which opened Saturday last. Despite the stormy weather Mr. Nicholas reports that they did a very nice business on the opening day and so far this week sales have been very good. Charlie has some splendid bargains listed on the big bill and many local people are taking advantage of the low prices.

CANADIAN'S GREAT SWIM
George Young, 17-year-old Toronto boy who accomplished the 22-mile swim from Santa Catalina Island to the California mainland in 15 hours and 45 minutes, and won \$25,000 prize as the first person to swim this treacherous channel. He was the only competitor out of 95 to finish the course.

Junior Red Cross

The members of the Cameron School Junior Red Cross have received a portfolio from a Red Cross Circle in Ballarat, Australia. This portfolio contained a collection of pictures, with interesting descriptions of the native animals, birds, flowers, trees, etc., also pictures of the principal buildings of Ballarat. The children of the Cameron School have undertaken to make an exchange portfolio and already an interesting collection of pictures of the mountains, mines, birds, animals, etc., has been started. Mr. H. C. McBurney has donated a well bound mounting book and Mrs. McBurney has given numerous photos of places of interest around Coleman, snow scenes, etc. Mr. J. Haines has promised photos of the mines, etc. Donations of anything suitable and interesting will be much appreciated by the Secretary, Miss A. Yull.

New Speaker of Legislature

Mr. Geo. N. Johnston, member of the legislature for Coronation, has been selected by his fellow U. F. A. members as speaker of the legislature, to succeed Hon. O. L. McPherson, who recently succeeded Hon. Alex. Ross as minister of public works in the Alberta government. Mr. Johnston's formal election will take place when the legislature meets on February 10. Mr. Johnston was born in Wingham, Ont., 43 years ago and was educated there and at the London, Ont., collegiate. He taught school for a time in Ontario, then came west in 1905, attending the normal school at Regina. He taught for some time and also homesteaded in Saskatchewan, and in 1910 took up a homestead south of Consort, Alberta, where he at present resides. He has been a prominent member of the legislature and was last year chairman of the committee on redistribution.

Alberta Motor Registration

For the year 1926, a total of 64,775 automobiles were registered in the province, compared with 58,092 in 1925.

Operating New Branch Line

The new branch of the Edmonton, Dunvegan and B. C. Railway, built from Bushy, northwest of Edmonton, to the Pembisa River, is in operation for the handling of freight. The branch is at present 19 miles long, but will later be extended to Barhead.

H. B. Clemes, manager of the Co-operative Association of the Ontario farmers, was in Calgary this week to study the Alberta Wheat Pool system. The U. F. O. is planning on starting a Grain Pool in Ontario.

One of The Most Enjoyable Bonspiels Ever Held

Thirty three rinks participated in the Crow's Nest Pass Curling Association 16th Annual Bonspiel, held in Cranbrook last week, and enjoyed one of the finest events of this nature ever held by this association. The weatherman was on the job with a vengeance with 25 to 30 below in an endeavor to make up for the mild weather prevailing at the spite during the past three years.

Keen ice and keen fought games marked practically every contest in the six open events, and resulted in the prize being fairly evenly distributed from Cranbrook on the West to Medicine Hat on the East. While the two local rinks from Coleman did not attract any of the silverware this season, they had many hard fought battles to their credit and were only beaten in some important games by the last rink in the last end.

A great deal of commendation is due to the officers and members of the men's and women's curling clubs of Cranbrook for the splendid hospitality extended to all the visiting rinks, no stone was left unturned by these organizations, and the citizens as a whole, in their endeavor to make the occasion a very joyful one, and needless to say, they were more than successful.

1928 Spiel at Lethbridge

At the annual meeting of the Crow's Nest Pass Curling Association held Wednesday evening last, it was decided to hold the next spiel at Lethbridge.

The following officers were elected:—

President—J. S. Kirkham, Lethbridge.

Vice President—M. A. Kastner, of Fernie.

Secretary—J. Haines, of Lethbridge.

Executive—Cranbrook, A. C. Brown; Bull River, F. Douglas; Fernie, T. Penrice; Blairmore, L. Mosen; Michel, Geo. Fisher; Picher Creek, A. B. McMurdo; Carmangay, J. E. McNaughton; Coleman, J. H. Boulton; Lethbridge, C. Carberry; Taber, T. Patterson; Macleod, A. Young; Claresholm, S. Wyatt; Bow Island, J. Reid; Bellevue, T. Kerr; Lumberton, O. N. Jacobson.

The Winning Rinks

International—Mile, Cranbrook; Magrath—McNab, Lethbridge; Lethbridge Brewery—Wright, Medicine Hat.

Trites Wood—Kastner, Fernie.

Grand Challenge—Herchner, Fernie.

Inter-Provincial—McNab, Lethbridge.

Grand Aggregate—Wright, Medicine Hat.

On Friday of this week, in the Salvation Army Hall, Lieut. R. Webster will give an illustrated lecture with stereoscopic picture on "The Other Wise Man," written by Henry Van Dyke. This lecture holds in it a story of life which will thrill any audience.

Don't forget that "Over the Hill", that never to be forgotten picture, is to be shown at the Palace Theatre on Tuesday evening of next week. You may have seen it before, but you will like it better than ever in the release.

Owing to the extreme cold and blustery weather prevailing last Friday evening, the attendance at the rink to witness the hockey game between Bellevue ladies team and the local Amazons, was decidedly slim. The Coleman ladies had no difficulty in tucking the game away by a 7-1 score. The local girls are going to Cranbrook to play an exhibition game on Friday night of this week.

EX-PREMIER'S NEW POSITION
Hon. Herbert Greenwood, ex-Premier of Alberta, who goes to London this month as overseas immigration agent for Alberta in England.

Local and General Briefs.

The Alberta Wheat Pool had a booth at the U.F.A. Convention in Edmonton and supplied literature to all seekers of information. A sample of Herman Trelle's prize-winning wheat was exhibited in the booth.

Ed. Koyle, superintendent of the District Mine Rescue Car in the Pass, has been appointed an inspector under the Workmen's Compensation Act. He will conduct investigations formerly handled by Moses Johnson, district inspector of mines. This appointment is part of the new policy of the government in relieving the mine inspectors of a lot of work connected with the Workmen's Compensation Act and thereby enabling them to devote more time to actual mine inspection work.

Mr. and Mrs. Oscar Brindley, former residents of Coleman, who have spent the past few years in Saskatoon, left on Jan. 15th for Vancouver, B.C., where they will make their home. Mr. Brindley is still connected with the Metropolitan Life Assurance Company and is making steady progress with this well known company.

Change in Mines Branch

John T. Steiling, chief mines inspector of Alberta, who has for some years also been filling the position of chairman of the workmen's compensation board, has retired from his position with the mines branch and will devote his whole time to the work of the compensation board. The selection of a new chief inspector of mines is now having the attention of the government.

Alberta's 1926 Coal Production

The preliminary estimate of the coal production in Alberta for 1926, announced by the dominion bureau of statistics was 6,117,000 tons, an increase over the previous year.

Bell's Rink Win McGillivray Cup

A curling game of more than ordinary interest took place at the local rink a week ago last Saturday night, when Jack Bell's stalwarts met Jack Houghton's rink in the final game for the McGillivray Cup, the premier event of the Coleman club events. Owing to the mild weather at that time, the ice was soft which proved to be ideal for Jack's heavyweights who took the lead early in the game and were never headed.

"Over the Hill" showing at the Palace Theatre on Tuesday of next week, is the most wonderful of all modern moving picture dramas. It is one of those plays which leave pleasant memories with you in the days to come.

FOR Colds

ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Neuralgia
Pain Neuritis
Headache Lumbago
Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proved directions. Handy "Pillars" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark registered in Canada of Bayer Manufacturers of Monocentric and Substituted Salicylic Acids, "A.S.A." While it is well known that this Aspirin name Bayer manufacturers to assist the public against imitations, the Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

An Inspiration To Canadian Youth

All America is ringing with praise of George Young, the 17 year old Toronto boy who won the great swimming marathon between Catalina Island and the mainland of California, successfully negotiating the stretch of icy water in a contest where one hundred others failed, including some of the world's most renowned swimmers. It was a wonderful achievement, and, following the performance of John Mills, of Sydney, Nova Scotia, who set a new world record last year in winning the Boston Amateur Athletic association in his first race over the 26 mile course, and the enthusiasm which Canadian hockey players are manifesting in the big American cities, is having the effect of further driving attention to Canada as a land which produces the finest types of sturdy young manhood.

Through his great feat, George Young not only won a substantial financial reward, but he leaps into athletic fame. He will be honored, cheered and feted, and his name will be remembered in the annals of great feats of courage, strength and endurance.

But it is not because of his victory alone that Canadians should be proud of George Young and find delight in doing his honors. Rather our deeper national pride should rest upon the qualities of mind and heart and character which this youth displayed in approaching the hard trial to which he set himself, and the noble qualities which dominated his action.

A year ago, with no relatives but a widowed, estranged mother to whom he was devotedly attached, George Young voluntarily sacrificed his number one standing as a swimmer and risked his life in this one effort. He did so not because of a personal desire for fame or money, but in an act of commendable desire to be able to take his crippled mother to California and provide her with the means whereby she might reach her longed-for home.

The boy's strength of character, his self-determination, and his willingness to sacrifice were clearly shown when, lacking the necessary railway fare from Toronto to California, he started to make the journey on a patched up tin can and doggedly pushed his way as far as Astoria. A boy of less character and perseverance would have "passed the bat" in order to reach the port of his desire. And George Young has not achieved fame as he has done, it is safe to say that, in any event, he would have made a success of his life and in whatever sphere he might choose.

Premier Macdonald King rightly expressed the sentiments of the people of Canada when, in extending congratulations on behalf of the Government and people of the Dominion, he said that this country shared with equal pride George Young's success and his beautiful tribute to his mother and all that she had done for him.

Such an achievement in the face of obstacles to be overcome that might well daunt the stoutest heart is an inspiration to the youth of Canada. Thousands of Canadian boys can never hope to be great athletic champions and whose names will never be found on the list of winners of their country, and men but in meeting the problems and difficulties of everyday life, and in shouldering the responsibilities that may be forced upon them, do so with the same force of character, the same determination, the same willingness to sacrifice for the good of others, are equally heroic, and of them Canada will be equally proud.

George Young has taught better than he knew. His mother has borne testimony to the character of the young life, and George has in spectacular fashion shown all Canadian boys that a clean life, free from bad habits and dissipation, pays. He has brought forcibly home to all the truth of the old adage that where there's a will there's a way. In bringing home to Canada, he has likewise brought something of far greater and more lasting value, an object lesson which will enlighten upon the imagination and have for the heroic in every normal Canadian boy.

This is a real national asset, because it is only through the cultivation and development of those same traits which made George Young a winner that the best of Canada, of any country, can realize full success in the future. It requires exactly the same qualities to make a real success in anything it does as were required to successfully swim Catalina channel.

Mrs. Duggs: "I hear your son is going to get married. I do hope he will be lucky."

Mrs. Duggs: "These very kind words, he'll be all right, he came through the Great War without a scratch."

If you would cultivate those noble traits, you would acquire a good reputation and then keep it polished.

MURINE

For Your EYES

Refreshes Tired Eyes

Wash with "Murine" and your eyes will be clear and comfortable.

Minard's Liniment for chapped hands.

Hardiness of Weed Seed

Seeds Lying Dormant for Forty Years Will Germinate

The seed of some of the troublesome varieties of weeds show a great tenacity of life. They will resuscitate long after they are supposed to be dead. In the case of the black mustard, it was killed if not thoroughly and skillfully disposed of. The Michigan Agricultural College is engaged, as reported in the Bulletin No. 72 of the Dominion Department of Agriculture, in an experiment to ascertain definitely how many years the common weed seeds will lie dormant in the soil and then resume growth where suitable conditions come about. Weed seeds are mixed with sand and placed in unopened pint bottles that are buried twenty inches below the surface and one taken up every five years. The experiment which can be continued for 100 years has already been conducted forty years. After being left this length of time in the soil it has been found that black mustard, pepper grass, pig weed, ragweed, wild radish, common plantain, purslane and curled dock will still germinate. Some of these weeds removed in the earlier years failed to germinate but did so in later years. Ragweed failed to germinate in every trial until after it had been forty years in the soil. As the authors of the bulletin referred to (Messrs E. S. Hopkins and W. C. Hopper of the Field Husbandry Division of the Dominion Experimental Farms) suggest it is apparent that there can be no let up in the war against weeds, especially if the land has once become infested and that prevention of their getting a start is presumably the most important method of weed control. Neglect for one year may result in a plague of weeds for a life-time and longer.

Joint Stiffness Goes, Swellings Disappear, Pain Is Subdued

No Liment Gives Such Universal Satisfaction As

NERVILINE

It is the great penetrating power of Nerviline that makes it so efficient in overcoming swelling, stiffness and inflammation. The pain, penetrating quickly through the tissues, and brings a relief, comforting and lasting. Nerviline outclasses in pain relieving power all other remedies. For the motorist and the traveler, Nerviline should always be kept handy in the car. Use it for Rheumatism, Lumbago, Neuralgia and Colds. 25 cents at all dealers.

Democracy in Action

Bolt-Boyce drove up to the front of the private school, and a very important-looking woman called out to a little fellow in uniform. "You please call my son, Master Algebrant." In just a moment there was a shout: "Hey, Skippy, you me's hero!"

PUT STOMACH IN ORDER AT ONCE

"Pape's Diapispin" for Gas, Indigestion or Sour Stomach

Instantly! Stomach corrected! You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of Pape's Diapispin. The moment it reaches the stomach all mucus, indigestion, heartburn, gases, flatulence and pain disappear. Diapispin stimulates each part of the digestive tract at once. Find your stomach trouble for ten cents.

Since the demand from the United States for arsenic to fight the boll weevil in cotton has ceased, the Australian state mines at Mulhobbar have been compelled to close.

Heart Palpitation Dizzy, Sinking Spells

Mrs. M. A. Gargen, Donarville, Alta., writes: "Some time ago I was very nervous, could not sleep at night, often had dizzy, sinking spells and palpitation of the heart, and was so run down I could not do my housework, but I just leave everything and sit down."

I spent a lot of money using medicine from the doctor, but it did not do me any good.

At last a friend told me to use Milburn's Heart Nerve Pills. After using a couple of boxes of these pills, I was able to do my housework and feel so much better. After a few more boxes I was in perfect health. I always recommend them to all those I know who are suffering from heart trouble."

Price 50c. a box at all druggists or, by mail, direct, on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SCOTT'S EMULSION

Builds Strong Bones

Alberta Livestock Board

Officers Are Elected at Annual Meeting Held in Edmonton

At the annual meeting of the Alberta Livestock Board at Edmonton, J. Charles Yule, of Cardston, was elected president; J. P. Sackville, of Edmonton, vice-president. In addition to the president of each of the livestock associations from northern and southern Alberta, the following were elected to the board: W. J. Stark, of Edmonton; R. L. Richardson, of Calgary; J. P. Sackville, of Edmonton; J. L. Walters, of Calgary; A. E. Cross and G. H. Tutton, of Calgary; C. G. Clark, of Lethbridge.

Steps will be taken to get aside for their assistance from the provincial government toward the exhibit going east to the Royal shows next year. It is proposed to send an exhibit of all kinds of stock from Alberta to Toronto next year. To facilitate the shipping of a sheep exhibit the minister of agriculture will be asked to pay a competent man to accompany them. There was considerable discussion regarding the appointment of judges for fairs and some recommendations will go forward to the Dominion government which it is hoped will overcome the present unsatisfactory conditions.

Robbers Take Heavy Toll

A Billion and a Half Is Stolen Each Year in United States, According to Estimate

Merchandise, valued at \$1,190,000,000, is taken out of legitimate channels in the United States each year by band, theft and robbery and sent back into the market through a system of "fence" to "underfed" honest dealers.

How the "fence" or receiver of stolen property operates to supply the market for stolen goods is a voluminous report issued by the prison commission of the association of Grand Jurors of New York county.

In arriving at the huge total of losses the report gives the following breakdown: Burglary, \$500,000,000; embezzlement, \$250,000,000; robbery, theft and holdups, \$1,000,000,000; burglary, \$250,000,000.

The report also points out the weaknesses in existing laws which make the illicit dealer almost immune from prosecution.

Awful Asthma Attacks. Is there a number of your family who is in the power of this distressing trouble? No service you can render him will equal the bringing to him a small box of Dr. Kellie's Asthma Remedy. This remarkable remedy cures its repetition. You must have it in your house for others. It has a truly wonderful record, covering years and years of success in almost every case of this complaint, and even beyond the seas.

Portrait of Lenin

Appears on Stamps

Proceeds of Restricted Issue to be Used for Charity

For the first time since his death the visage of Nicolai Lenin has appeared on an issue of stamps. It represents him as a child of nine, long before Communism was dreamed of in Russia and appears on a restricted issue of twenty kopek stamps, the proceeds to be devoted to relief of the nation's 500,000 vagrant soldiers. Hereafter the authorities have forbidden use of Lenin's likeness on stamps, cigarette boxes or advertising matter. The rule was relaxed in this instance to help the children.

Through Service For Overseas Travellers

In order to provide every convenience for overseas travellers, the Canadian Pacific Railway are operating

through tourist sleeping cars from Winnipeg each week to connect with steamers sailing from West Saint John, N.S. These cars, which go direct to the ship's side, assure comfort and facilitate transfer to or from train to steamer. Overseas bookings and reservations on these cars, may be made with any Ticket Agent of the Canadian Pacific.

"My razor doesn't cut at all."

"Come on," replied the wife. "Your beard is no tougher than the linoleum I cut yesterday."

The Friend of All Sufferers.—Dr. Thomas' Electric Oil is a remedy ready to all those who suffer pain. It holds out hope to everyone and relieves by stilling suffering everywhere. It is a liniment that has the blessing of him a continent. It is on sale everywhere and can be found wherever required for.

To be popular never let on that you know more than the fools or as much as the wags.

Sneezing?—Use Minard's Liniment.

Recover Dismantled Car

Berlin Police Deliver It to Owner in Running Condition

A seven-passenger limousine stolen two years ago, dismantled and sold piece meal by thieves to three different junk dealers, has been restored to the owner in running condition by the Berlin police. All it needs is a coat of paint.

More than a dozen police officers and detectives worked on the case off and on. Armed with the numbers of all parts of the limo, which was owned by a wealthy industrialist, the police garage mechanics were able to restore the car as it was when stolen.

FATEFUL YEARS

FOR ALL WOMEN

Much Suffering Can be Avoided Through the Use of Dr. Williams' Pink Pills

The most fateful years in a woman's life are those between forty-five and fifty. Many women enter this term under depressing conditions; through overwork, worry, or a watery condition of the blood, and they suffer heavily.

Among the commonest symptoms are headache, palpitations, dizziness, indigestion. Women stand in need of rich red blood all their lives, but never more so than at middle age, when the nerves are also weak and overworked. In this condition there is no other medicine can do so much for women as Dr. Williams' Pink Pills. These pills make rich, red blood, which gives tone to the whole body, thus restoring robust health. Thousands of Canadian women have proved the value of Dr. Williams' Pink Pills in the case of Mrs. J. M. Johnston, of Lethbridge, Alberta. She writes: "I am writing to let you know the wonderful effect your pills have done me. I was a complete wreck, and would faint if I crossed the street. I was going through the change of life, and was so weak I could not do my work. I went to the doctor, who said I was not getting an operation would help me. But I said, 'No, Dr. Williams' Pink Pills helped me in childbirth, and I am going to give them to my child.' I took the pills steadily for a month, when I returned home a well woman, able to do all my work with ease. Friends here say I'm a wonder. I am alive after what I went through, and I am thankful to say I believe Dr. Williams' Pink Pills saved my life."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

"Don't take it so hard, I'm tired even if I give this your over, remember what the wrong says: 'The hours I've spent with your dear heart!'"

"It ain't the hours I'm thinking of—it's the Jack."

The tongue of a woman is her sword—and she never allows it to rust.

Nearly half of all the ships being built in the world are motor vessels.

Mrs. Stanley—Are you aware, Mrs. Shilstone, that your dog has just bitten my little Willie?

Mrs. Shilstone—What, your Willie, who has not over a scratch fever?

Mrs. Stanley, if anything should happen to Fido I'll never forgive you.

Next time you buy a loaf of wrapped bread from your Baker, look at the paper and see if the Appleford trade mark appears thereon.

If so, it means that your Baker is protecting his goods and protecting your health by using the cleanest and purest paper that he can buy. Most good Bakers now use Appleford wraps because they know that their goods will keep fresh longer and will be delivered to you in a sanitary manner.

When buying Waxed Paper for household use be sure and ask for PARA-SANI put up in rolls or sheets.

Vegetarians Are Not Immune From Cancer

Cases Occur Among People Who Abstain From Flesh Foods

Inquiries have been conducted among monastic communities in England by doctors connected with the health ministry and from the information thus obtained it has been conclusively proven, says Sir George Newman, chief medical officer to the ministry, that cases of cancer occur among people abstaining from flesh foods.

There is therefore no foundation for the contention that vegetarians are immune to cancer, he adds.

The investigations were made among the Carthusians, a French order; Benedictines, Italian; Carmelites, first founded in Syria, and Dominicans, Spanish, all of whom adhere to a strict diet system, most of them excluding meat.

British Subjects Should Use Canadian Ports

Delay When Landing at New York Would be Avoided

Canadian ships are reporting themselves, or are being reported, as the victims of delay and discomfort in the experience of landing from ocean liners in New York Harbor. Delay, discomfort and inconvenience may increase and shipping agents and Canadian travelers at St. John and Halifax in water time as Canadians learn to sail from Montreal and Quebec in summer time. United States Customs-office operating at the Port of New York may yet restrict British subjects that landing at the winter ports of their own country is easier to bear than the delays and discomforts prepared for British subjects at the Port of New York.

Plans for Diamond Jubilee

Outstanding events in the history of Canada will be faithfully depicted in pageantry of the most colorful and gorgeous sort, according to plans which are being eagerly worked out for the Diamond Jubilee celebration of the Dominion which will be observed July 1, and participated in by H.R.H. the Prince of Wales and R. Hon. Stanley Baldwin, Prime Minister of Great Britain, says The Ottawa Journal.

Fresh Supplies in Demand.—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be applied its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of leakage.

Mrs. Stanley—Are you aware, Mrs. Shilstone, that your dog has just bitten my little Willie?

Mrs. Shilstone—What, your Willie, who has not over a scratch fever?

Mrs. Stanley, if anything should happen to Fido I'll never forgive you.

Next time you buy a loaf of wrapped bread from your Baker, look at the paper and see if the Appleford trade mark appears thereon.

If so, it means that your Baker is protecting his goods and protecting your health by using the cleanest and purest paper that he can buy. Most good Bakers now use Appleford wraps because they know that their goods will keep fresh longer and will be delivered to you in a sanitary manner.

When buying Waxed Paper for household use be sure and ask for PARA-SANI put up in rolls or sheets.

FASCISM FOR ITALY APPROVED BY CHURCHILL

Rome.—Warm approval of Fascism has been applied to the people of Italy was expressed by Winston Churchill, British Chancellor of the Exchequer, in a statement given out to the newspaper correspondents. The chancellor, like Sir Austen Chamberlain, British foreign secretary, came to Rome to pay for himself the achievements of Fascism and confer with Premier Mussolini, Finance Minister Count Volpi, and other Fascist leaders.

In one part of his statement, Mr. Churchill said:

"If I were an Italian I am certain I would be with you from the start until the end in your glorious battle against the world appetite and passions of Leninism."

"But in Great Britain we have not yet been faced by that danger under the same form. We have our own methods of dealing with such things, but on one subject I have no doubts whatsoever—that we are united in the fight against Communism abroad."

In regard to the United States attitude toward Europe the British ambassador of the treasury had this to say:

"An entente like that of Locarno excludes no other power, and it does not preclude the interests of anyone who aligns himself with the general struggle of Nations and the League of Nations and facilitates the development of that vital instrument, and the United States cannot very well much longer remain aloof."

Editors Appoint Delegates

Saskatchewan to Send Delegates to Meeting of Directors of Canadian Association in Toronto.

Toronto.—At a meeting of the directors of the Saskatchewan Division of the Canadian Weekly Newspaper Association held here, S. N. Wynne, Yorkton, and S. J. Doman, Alameda, were elected to go as delegates to the meeting of directors of the Canadian Association in Toronto, February 25.

Several matters of importance to the Association were discussed at the meeting. The report of the committee which recently interviewed the Saskatchewan Government was read and adopted. The future of the paper was not for publication, S. J. Doman, secretary stated, of the fact that the Government had not taken up the matter in question.

Liberal Party Accepts Lloyd George's Offer

Large Sum Has Been Placed at Their Disposal

LONDON.—A capital sum of £250,000, and an annual income of between £10,000 and £15,000 will be placed at the disposal of Liberal headquarters as a result of the party's acceptance of Lloyd George's offer of financial assistance, according to The Daily News. This assistance will enable the party to present a full list of battle in the way of candidates in the next general elections.

Lloyd George insists his present offer is conditional upon the appointment of a neutral organizing committee—as distinct from the Asquithian and Georgian factions of the party.

New Grain Inspection Point

MOOSE JAW.—Moose Jaw is to be a grain inspection district as from August 1 next by virtue of an Order in Council which has been approved by the Governor-General. Word to this effect was brought to this city by J. Gordon Ross, M.P. for the Moose Jaw Federal constituency, on his return from Ottawa.

Confers Title on Emperor

Tokyo.—The posthumous title of "Emperor Taisho" has been conferred upon the late Emperor Yoshihito at an impressive ceremony in the Imperial Palace. Taisho is the name of the Emperor Yoshihito's era. The title was the last important ceremony before the funeral.

Prominent Architect Dead

OTTAWA.—Richard Costman Wright, chief architect of the public works of Canada and an outstanding figure in his profession, is dead here after an illness of five weeks' duration. Death was due to paralysis. Mr. Wright was 65 years old and unmarried.

Cocktails, cigarettes and cakes are being served to customers by a dressmaker of Paris.

W. N. U. 1665

Want H. B. Line Completed

Resolution to be Introduced in Saskatchewan Legislature

REGINA.—The completion of the Hudson's Bay Railway in 1927 with specific reference to Port Nelson as the terminal will be debated in the Saskatchewan Legislature during the session just opened, according to a note of a resolution given by O. D. Hill, Government member for Melville.

Mr. Hill announced that he would move the resolution in the following form:

"That in the opinion of this assembly, construction of the Hudson's Bay Railway should be carried out with the least interruption so that the line may be completed to Nelson during 1927."

"Notice of the introduction of seven bills, the recommendations of the special committee appointed for the year standing committee for the year were approved, annual reports of the departments of highways and education were tabled and a dozen bills of private legislation were presented and tabled."

Mr. J. A. Cross, attorney-general, gave notice of his intention to introduce bills to facilitate the enforcement of reciprocal judgments in Saskatchewan and in other parts of His Majesty's Dominions and to amend the Deserted Wives' Maintenance Act.

Mr. T. C. Davis, Minister of Municipal Affairs will introduce bills to amend the Minimum Wage Act, Respecting Towns; To amend the Factories Act; To amend the School Assessment Act; and to validate certain tax sales.

British Marines Are Sent to China

Will Be Used for Defensive Purposes Only Says Official

LONDON.—Scenes so familiar in the time of the Boxer rebellion were repeated at Chatham when marines detailed for duty in China assembled to commence their preliminary journey to Portsmouth. Three hundred marines to the station with full field equipment, headed by a regimental band and were frantically cheered by spectators.

They were joined by another 300 from Plymouth, Portsmouth supplying the remaining 600 necessary to make up the 1,000.

Official quarters again stress that whatever is being done is in no way intended as a departure from the policy of non-aggression. In this connection The Star, a radical newspaper, says:

"It is intended to impress Eugene Chen, Chinese Foreign Minister, that it may be possible to justify such a demonstration. But a nation like ours cannot make a demonstration and then draw back."

The marines will sail for China near the end of the month, and according to the Government will be used only for defensive purposes.

Plan to Develop Cuban Trade

Minister of Finance Returns to Canada With Proposal

OTTAWA.—A trade agreement between Canada and Cuba may result from the visit to Cuba of Hon. J. A. Robb, Minister of Finance.

Mr. Robb has returned to Ottawa, and it is understood he is preparing to discuss with his colleagues in the cabinet the question of improved trade relations between the two countries. While in Cuba Mr. Robb held some preliminary discussions with members of the administration, whom he found most friendly toward the idea of increased trade with Canada. Cuba now gives preferential tariff rates to the United States, but there is a feeling that without disturbing this preference, much can be done to develop Cuban trade.

During Mr. Robb's absence from Ottawa, Ignace Kihl, head charge of the Finance Department.

Was Balaclava Veteran

VEVAY, Ind.—Thomas O'Hay aged 93 years, who is thought to be the last of the band who took part in the battle of Balaclava, immortalized in Tennyson's "The Charge of the Light Brigade," is dead here. Mr. O'Hay was born in Ireland.

Influenza in Britain

LONDON.—Three hundred and twenty deaths from influenza in England and Wales during the week ending January 15, were recorded in statistics published by the ministry of health. One hundred and thirty-seven died in London alone.

Strong Arm of Fascist

ROME.—Any man showing himself opposed to the present Fascist national government will be barred from the merchant marine for a period of five years, under a royal decree published here.

Conferring of Titles

Discussion is Opened by suggestion Made by Premier Ferguson

TORONTO.—Considerable discussion has followed the suggestion made by Hon. Howard Ferguson, prime minister of Ontario, at the banquet in honor of Sir Henry Ferguson, retired Lieutenant-Governor of Ontario, that the House of Commons should remove the ban placed on the conferring of His Majesty's titles for distinguished service just granted by King George V. He emphasized that he did not suggest that the "no titles" ban be removed in the case of persons elected by the people.

W. E. Noble, K.C., who, while member for Kingston in the Commons in 1918, was the father of the "no titles" resolution which was endorsed and sent to His Majesty, said he saw no reason for changing his opinion. He thought there ought not to be attached to any democratic country "an outgrown and worn-out system."

U. F. A. WOULD WIDEN SPHERE OF ITS INFLUENCE

Edmonton.—Rejecting the counsel offered by executive members of the organization, to concentrate on the immediate problems and development of the movement in the province, the United Farmers of Alberta, Inc. convention here, committed themselves to a policy of inter-provincial co-ordination and national organization.

The proposition was opened by several directors of the organization who emphasized the dangers of embracing too large a sphere while the province field had not been thoroughly consolidated.

The proponents of national solidarity generally agreed that the farmers of Canada must depart from their purely provincial programs and activities and enter upon a broader undertaking, which would provide greater unity of action and enable the organized agriculturists to introduce the influence in federal matters to which the importance of their industry was entitled.

Shortly after the convention had endorsed this policy of action, H. W. Wood, who was elected to the presidency of the U.F.A. for the twelfth successive term, indirectly drew attention to the possible consequences of overlooking the development of class consciousness.

Mr. Wood was dealing with the problem of fostering and strengthening the junior branch of the organization. There had, he said, been a slight indication of the development of a spirit of class consciousness in the junior branch, which did not appear to be the most desirable thing.

"I don't think any real or serious damage has been done, but unless we avoid the danger, there is a real menace of this spirit alienating the loyalty of the junior members to the parent organization of the U.F.A."

Bringing Home the Bacon

All manner of birds and animals have at some time or other been elected as mascots. Pigeons as a rule are never elevated to such a position of honor, but in the photograph is an exception. While Miss Evelyn Evans of Brooklyn, voyaging around the world on the Canadian Pacific Steamship Empress of Scotland, was on a shopping tour in Punceli, Madeira, she bought this domestic fowl mascot of the Empress of Scotland. And now the fowl will be "taking the air" of foreign ports in the four corners of the earth before the Empress sails back to America from her 30,000-mile voyage.

OLD AGE PENSION BILL INTRODUCED IN B. C. HOUSE

VICTORIA, B.C.—An act to provide for old age pensions for the people of British Columbia was introduced into the Legislature by Premier John Oliver. The bill authorizes the province to enter into a general scheme of old age pensions with the Dominion on a fifty-fifty basis. Any agreement entered into would be under any act of the Dominion Legislature hereafter or herebefore by British Columbia, and would call for the payment by Ottawa to the province quarterly of an amount equal to one-half of the net sum paid out during the previous quarter by the provincial government.

Under the bill the administration of the act would be in the hands of the Workmen's Compensation Board. The Premier's proposal to the House in which the province would be empowered to enter into an agreement with the federal government for the joint payment of old age pensions, the cost being divided equally between the province and the Dominion. This move is proposed in anticipation of the early introduction into Parliament of the old age pension bill previously brought down by the Hon. King government and rejected in the Senate.

Noted War Correspondent

Martin Donahue, Who "Covered" Several Wars, Dies in London

LONDON.—Martin H. Donahue, noted war correspondent, died recently after several weeks' illness.

He was born in Galway, Ireland, 57 years ago, and after an education which included study of the original language, embarked on his journalistic career with the Courier Australasian, of Sydney, N.S.W., in 1892.

He was correspondent during the Boer War for the London Daily Chronicle. He also "covered" the Russo-Japanese war, the Turkish revolution of 1909, the Portuguese revolution of 1910, the Italian war of 1912-13.

In the great war he was an officer in the British Intelligence Corps, serving in Greece, Rumania and Russia.

Want Royal Commission

MONTREAL.—A petition which is expected will be signed by 50,000 citizens of Montreal is being prepared for circulation by the St. Jean Baptiste Society asking the Premier of the province to appoint a Royal Commission to investigate the Lower St. Lawrence. The petition states that the decision of the city council to hold an inquiry is not satisfactory.

Killed in "Plane Crash"

VALETTA, Malta.—Three officers and a telegraph operator of the British air force lost their lives when their aeroplane struck a cliff and fell into the sea near here.

Bringing Home the Bacon

All manner of birds and animals have at some time or other been elected as mascots. Pigeons as a rule are never elevated to such a position of honor, but in the photograph is an exception. While Miss Evelyn Evans of Brooklyn, voyaging around the world on the Canadian Pacific Steamship Empress of Scotland, was on a shopping tour in Punceli, Madeira, she bought this domestic fowl mascot of the Empress of Scotland. And now the fowl will be "taking the air" of foreign ports in the four corners of the earth before the Empress sails back to America from her 30,000-mile voyage.

Employment Situation Improved Last Year

Statistics Show Greatest Expansion of Any Year Since 1922

OTTAWA.—Employment, as reported by employers in Canada to the Dominion Bureau of Statistics during 1926 was in greater volume than in any other year since 1922.

There was almost uninterrupted expansion on a large scale from early in January until the first of October. This upward swing carried the curve of employment to a level many points higher than in any of the last five years. During these eight months of advancing employment nearly 125,000 persons were added to the staffs of the reporting firms, a greater number than had been taken on in the same period of any other year of the record except 1922. When the opening up of industry following the depression of 1921 caused the employment of approximately the same number of extra employees.

In 1926 the most extensive gains were recorded at the beginning of May, June and July, as is usually the case. There were smaller increases in the next three months, followed by declines at the beginning of November and December. Owing partly to the effect of an early winter upon construction, the losses required November 1 were rather larger than on the same date in 1925 or 1924 but on December 1 they were smaller than on the corresponding date of any other year of the record, except 1922.

Grading Cattle and Sheep

Advocates the Grading at All Stockyards by Federal Graders

MOOSE JAW.—A movement looking to the grading of cattle and sheep at all the stockyards in Alberta by federal graders was launched at the annual meeting of the Saskatchewan Cattle Breeders' Association here, when a resolution asking the Dominion Government to appoint graders for this purpose was carried unanimously.

Assurances that the Saskatchewan Livestock Pool was going over the top was given by Ole Olafson, director, who stated he expected the objection of 1,000 curiots of livestock under control and he would very shortly, possibly by the end of the month.

C. W. Thurston, Regina, president, urged the farmers to grow cattle feed crops and to use the same for their own use. He also declared hundreds of farmers could spend their time to better advantage by feeding a carload or two of steers each winter.

Death of Queen Charlotte

Belgian Court Goes into Ten Weeks' Mourning

BRUSSELS.—The Belgian court went into ten weeks' mourning for Charlotte, widow of Maximilian, once Emperor of Mexico, who died in the fifth year of a life that had been hardly more than a tragic haze since 1867. In that year Maximilian was executed in Mexico and Empress Charlotte who was in Europe trying to gain aid for his escape, empire lost her reason never to recover it again save in rare and fleeting moments, one of which came just before her death from influenza and pneumonia.

SCOPE OF THE CUSTOMS PROBE TO BE EXTENDED

Vancouver.—The scope of the Royal Commission appointed to inquire into the conduct of the Department of Customs and Excise has been further extended.

When the commission resumed sitting, Chairman J. T. Brown produced an order-in-council passed on January 14, by virtue of which the commission is given even fuller powers of investigation. Under the terms of the order which was passed on the recommendation of Premier Mackenzie King, the commission will in addition (a) the powers already conferred, be empowered "to inquire into and report upon any other matters coming under the administration of the Minister of Customs and Excise which affect the public revenue of Canada or relate to the operations of any person or corporation in connection with any business carried on under the provisions of the Excise Act or Customs Act, or any regulations closely related to any of the matters or things hereinafter or referred to, and that they be authorized by the commission to be issued in that behalf to exercise all or any of the powers mentioned in sections 11 of the Inquiry Act."

Argentine Crop Large

Buenos Aires.—A second forecast of the Ministry of Agriculture on the present Argentine cereal crop, following that issued a month ago, shows that the wheat yield in almost all zones will be greater than was expected. The ministry's figures are as follows: Wheat, 6,065,000 tons; linseed, 1,750,000; oats, 1,041,000; barley, 421,000; rice, 55,000, and canary seed, 26,000.

Sepals Destroyed by Fire

LOS ANGELES.—Catching fire while returning from battle manoeuvres of the United States fleet one mile out from Los Angeles harbor, the navy seaplane 2-1 was completely destroyed near Devil Man's Island. Her crew of five was saved. The flames were caused by backfiring of the engine. The craft cost \$30,000 to build.

Youngest Governor in Texas

AUSTIN, Texas.—Governor Miriam M. Ferguson today became plain Mrs. Ferguson and Dan A. Moody became the youngest governor of a state in this country turned over her office to Moody, who is the youngest executive in the annals of the state.

WOULD ABOLISH DOMINION GRAIN STANDARDS BODY

Edmonton.—Abolition of the Dominion Grain Standards Board, as at present constituted, and the creation of a new body, affording equal representation of the producer and the grain trade of the three prairie provinces, was urged in a resolution passed by the United Farmers of Alberta.

The work of the existing standards board and the claim was made that the farmers of Alberta had suffered an appreciable loss through the adoption of a standard declared as detrimental to the producer.

In accordance with the provisions of the resolution, the reorganized board would be composed of 15 members, six farmers' representatives from each of the prairie provinces and four respectively from Ontario, Quebec and British Columbia.

The federal government will be asked to effect the suggested reorganization in sufficient time to permit a new board to function in setting the standards for the 1927 crop.

Advocates of the resolution alleged that the standard samples set for the 1926 crop had not contained a fair sample of Alberta wheat and that they could not be applied to a fair volume of the wheat grown in the province. It was suggested that any re-constituted board should secure representative samples from the various parts of Alberta in reaching a 1927 standard, so assuring adequate protection for the producer, of the province.

Canada Should Share

British Navy Burden

Resolution is to be Laid Before B.C. Legislature

VICTORIA, B.C.—A resolution urging the Canadian government to shoulder a fair share of the cost of the naval defence of the Empire will be introduced into the legislature this session by Major Alva Lyons, Conservative, Victoria.

Making this announcement in the House, Major Lyons said he had felt ashamed for Canadians to be listened to Premier Stanley M. Bruce of Australia delivering an address on imperial affairs here.

"The time is ripe for this province to take a stand on this matter," Major Lyons said. "If we are going to be the big people we think we will be, we should take the initiative and press forward to assume a proper share of the imperial defence burden."

U.S. Criminals in England

Scotland Yard Has Orders to Shoot to Kill When Pursuing Desperados

LONDON.—Scotland Yard, spurred by a recent increase in the operations of gunmen in London and the provinces, is organizing a "Flying squad" under orders to shoot to kill when in pursuit of desperados.

The squad will consist of picked men having speedy automobiles. Citizen volunteer police of 1500 men has also been summoned in Hertfordshire by the home secretary as an aid to the police in the preservation of law and order.

The methods employed by burglars and other criminals in England of late have brought the authorities to the belief that U.S. gunmen have reinforced English crooks, and have introduced a tendency toward the use of firearms when cornered.

Argentine Crop Large

Buenos Aires.—A second forecast of the Ministry of Agriculture on the present Argentine cereal crop, following that issued a month ago, shows that the wheat yield in almost all zones will be greater than was expected. The ministry's figures are as follows: Wheat, 6,065,000 tons; linseed, 1,750,000; oats, 1,041,000; barley, 421,000; rice, 55,000, and canary seed, 26,000.

Sepals Destroyed by Fire

LOS ANGELES.—Catching fire while returning from battle manoeuvres of the United States fleet one mile out from Los Angeles harbor, the navy seaplane 2-1 was completely destroyed near Devil Man's Island. Her crew of five was saved. The flames were caused by backfiring of the engine. The craft cost \$30,000 to build.

Transient advertisements to be paid for when ordered.

Display advertising rates on application at the office.

THURSDAY, JANUARY 27, 1927

BIG INTERESTS OUT TO ABOLISH THE INCOME TAX.

The Income Tax is the object of a very strong attack by many of the largest contributors and they are attempting to stampede the Dominion Government into taking action during the present session of parliament.

One of the arguments presented is that the American income tax is being reduced, hence the necessity to follow the lead in Canada.

The Americans were the first to introduce the income tax and The Journal has no recollection of any preconceived action on the part of the big capitalists to influence the Dominion Government to then follow suit and introduce the tax. The government has to raise an immense amount each year to take care of our war payments and the doing away with the income tax would not lower our taxation but simply force the Government to provide for the deficiency by other means of taxation.

The claim has been made that the big interests are treated unfairly and that the farmers and small business concerns to a great extent escape this particular tax.

The greater part of the income tax which is such a bugbear to these people is paid indirectly by the farmer and other consumers. The representatives of big business are simply collectors of the tax.

The claim that the income tax is a handicap to business hardly holds good, because its entire elimination would have very little effect in increasing consumption and it is increased consumption that is required to improve business.

The Dominion Government would be well advised to allow the Income Tax to remain, and if they have any surplus funds, use them in assisting the returned soldiers on the land who are producers and striving to get re-established and also for scientific research work in the development of agriculture and our mines.

INTELLIGENT ADVERTISING NEEDED TO KEEP TRADE AT HOME.

There can be little doubt in the mind of anyone who has studied the situation, that merchants in the smaller towns do not pay the attention to their advertising this important matter deserves. With present day transportation facilities coupled with merchandise advertised in every direction at attractive prices, it is little wonder that business is inclined to drift away from home. Everyone, almost, takes an outside paper and is in a position to compare values received at home and abroad. The local dealer starts with the edge in securing the business because his goods are on view, but if he depends almost solely on personal contact to exhibit any special values he has to offer, he will frequently fail to see many individuals before their purchases are made elsewhere. To sum the matter up, it is the go-getter who will get the business, and intelligent advertising is one of the first essentials.

The shoe manufacturers are the latest applicants for an increase in the tariff. Raising the tariff seems to be the panacea the manufacturers would apply in every instance in which for any reason they do not enjoy uninterrupted prosperity. Keep the other fellow out so the price to the consumer may be raised to a level where the manufacturer would not even need to think for himself is the prevailing idea. Spoon feeding industry has not proven a satisfactory arrangement in Canada. These infants become so indolent they do not like to even try to use their own feet.

The marital affairs of Mr. and Mrs. Charlie Chaplin are receiving considerable front page attention these days. It would not be amiss for daily papers here and in the States to be put under the same law that prevails in Britain, where it is an offence to print these lurid particulars of divorce cases. Of what real interest is an ugly mess like the Chaplin case to the average man and woman in this country?

Every community has its gossip mongers and they do incalculable damage and are a nuisance and a menace in whatever circle they move, whether high or low. If those who refrain from gossip would condemn it wherever found, there would be a sharp decline in that kind of thing.

The boy that isn't kept busy doing something useful, is going to keep busy doing something that may be detrimental to him in future life.

The business people who advertise in this paper have a message for you; and their message is interesting, informative and profitable messages.

Here and There

Portage La Prairie, Manitoba.—Ten carloads of flour have been shipped to Salonika, Greece. The flour is made from Manitoba Number 1 Hard wheat and labeled as such. This large order is thought by the milling interests to represent the opening up of a new, valuable trade channel.

Saskatoon.—The colonization boards of the province, operated under the C.P.R. Department of Colonization, are doing a splendid work in colonizing the province along right lines, according to Mayor Potter, of Saskatoon, and other speakers, at the second annual meeting of representatives of these boards.

While the gypsy has been a familiar figure in fiction for at least a century, the novelist has usually taken for his characters the wild Romany types. But there is a modern type who has adopted himself to city life. It is this type that John Murray Gibson, Dean of Publicity of the C.P.R., has chosen for the leading character in his new novel, "Eyes of a Gypsy."

Toronto.—The Ontario Government is spending \$1,000,000 during the present fiscal year to make hydro-electric power available to the farmers of the province. This follows the plan begun by the Drury Government, of paying one-half cost of primary line construction, and later extended by the Ferguson Government to secondary line work as well.

One hundred young men from the British Isles will take up their studies of Canadian farming at the Agricultural College at Olds, Alberta, soon. Seven of these prospective Canadian farmers arrived in Canada on the Canadian Pacific liner "Montcalm" recently, being brought out under the Hoadley immigration scheme, which is being carried out in conjunction with the Empire Settlement Board.

Toronto.—Ontario cattle scored signally at the National Dairy Exposition in Detroit last week with a prize winner in each of the first four Holstein breeds. This is a better record than that of any other part of the continent. The prize winners were: Leroy Siddall and J. F. Gibbons, of Denfield, T. O. Dolson, of Brampton, and Haley and Lee, of Springfield. A number of lesser prizes also went to Canadian breeders.

Facilities at the Eastern Public Cattle Market in Montreal have been augmented by the addition of a new export cattle building, which was opened recently. This new building is considered one of the finest of its kind on the continent and has accommodation for 50 carloads of cattle. By the arrangements of 25 cattle chutes on each side of the main alley-way, a train of 25 cars can be unloaded at each side of the building.

According to the western farmer a feature of the present year's harvest was the use of "combines"—the combine reaper and threshers now being made by several implement manufacturers in this country. One farmer using this outfit claims to have covered from 35 to 50 acres per day at a cost of 45 cents an acre. He says that they save the cost of twine and about nine-tenths of the labor of harvesting. The implements cost about \$2,000.

MAY BE PROGRESSIVE WHIP
J. W. Windfield, M.P.P. for North Ontario, who will probably occupy the vacant post of Whip for the Progressives in the Ontario Legislature.

Far-Flung British Empire In Area and Extent Is Something At Which To Marvel

Commenting on the recent Imperial Conference and its accomplishments, a contributor to the World Wide magazine remarks that even without the self-governing Dominions and India, Great Britain and her dependencies would constitute quite a respectable Empire. That, of course, is true enough, but it would be an Empire of the older type, not a commonwealth of free, self-governing states bound together by community of sentiment and interest and acting together for the common good. In other words, a great experiment of incalculable value to the world, would be nullified were disrupted to come. But apart from this side of the question, most people have only a vague idea of the vast extent of the territories that the Mother Country has undertaken to administer and to keep the peace within their confines. World Wide, indeed, has applied the process of stocktaking to the British Empire in its supposed restricted form. In areas the Dominions would far exceed the Mother Country and her dependencies, even though the Sudan alone, with its million of square miles, more than equals a quarter of Canada, one-third of Australia, and more than a moiety of India. As World Wide says, "In number and reach that these dependencies shine as a veritable galaxy, islands rise in every ocean, every continent is at least touched, save that of North America, assuming that Newfoundland and her stretch of Labrador is eliminated."

In Europe there are Northern Ireland, the Isle of Man, the Channel Islands, Gibraltar, Malta and Cyprus. In Central and South America are the British West Indies, Bermuda, Falkland Islands, British Guiana, British Honduras.

In Africa, in continental possessions and islands under direct control of the British government there are Swaziland, Basutoland, Bechuanaland, Southern Rhodesia, Northern Rhodesia, Nyasaland, Uganda, Kenya, Zanzibar, Somaliland, Sudan, St. Helena, Ascension, Sierra Leone, Cape Sierra Leone, Gambia, Mauritius, Seychelles.

In Asia, other than India, there are Ceylon, Afghanistan, Straits Settlements, Federated Malay States, British North Borneo, Sarawak, Hong Kong, Weihaiwei.

In Oceania, Papua, Fiji, Gilbert and Ellice Islands, Solomon Islands, and the Tonga Islands.

To complete the list outside the Dominions and India there are the territories under British mandate. They are the British Cameroons, Iraq, Palestine, Tanganyika and British Togoland.

What a vast structure the British Empire is, can be gathered from this stocktaking, and when the Dominions and India are considered, it is more imposing still. The British Empire is a structure of which the world is proud. It is a structure that is required to hold this massive structure together with its vast responsibilities. The genius was produced in a way that was effected at the Imperial Conference in its achievement in regard to Dominion status. The stocktaking shows us our Empire as it is, something at which to marvel.

Improvements In Fruits

Determining the Kind Most Suitable for Growth in Each Particular District

There are no more valuable experiments being carried on at the Dominion Experimental Farms and stations than those concerning fruit. Not alone are efforts directed to the improvement of varieties, but also to the ascertainment of the kind most suitable for growth in each particular district. Apples being the greatest staple of the country naturally receive special attention and some valuable varieties have been developed or bettered by cultivation. Special efforts are being made to obtain heavier and improved winter sorts, around no fewer than three hundred of the longer-keeping varieties now being under test. Pears are receiving similar attention and particularly with a view to securing better blight-resistant varieties.

Hardy cherries are being looked for and the hybrids between the native American species and the Japanese plum have produced useful sorts for Eastern Canada. A spineless gooseberry is proving promising and blueberries are being experimented with to encourage them of their wider growth.

Investigations in regard to runner formation and fertilizing of the strawberry have shown that the earlier the runners root the larger will be the crops and that when nitrate soda is used as a fertilizer the best results are obtained when it is applied during the month of September.

Canadian Bacon Wins Prestige

Is Fast Taking a Prominent Place on the British Market

Canadian bred bacon is fast taking a prominent place on the British market. J. G. Robertson, secretary of the Saskatchewan Swine Breeders' Association reported at the livestock association's convention, Moose Jaw. Mr. Robertson pointed out that since the grading of hogs came into effect in November, 1925, greater progress has been made in the West than in any other part of Canada. The encouraging feature of export trade was the prestige Canadian bacon is winning in competition with Danish.

"The spread in price between Danish and Canadian bacon has dwindled from 25 shillings and eight pence in 1921 to four shillings in 1925, while at present Danish bacon enjoys an advantage of only four shillings of a cent per pound over Canadian," he said.

Mr. Robertson stated that only 35 per cent of hogs marketed in Winnipeg during 1924 graded select, while the percentage rose to 5.8 in 1925 and approximately nine per cent in 1926. Owing to the improvement in the quality of the bacon, Canadian's bacon exports to Great Britain had steadily increased since hog grading started in 1922.

"A small exhibit of Tamworth hogs was entered at the Toronto Royal and Ottawa winter fairs by E. E. Morrison of Fairlight. Mr. Morrison was successful in winning reserve championship honor, three first prizes, one second prize, one fourth and one fifth prize, making a total of ten prizes. This very beneficial showing should encourage this association to send a larger exhibit to eastern fairs in 1927. The membership of this association, now 215, has shown a substantial increase during the last three years, having this year for the first time exceeded the 200 mark. The association is in a satisfactory financial position, having increased its bank balance at the end of 1925 to \$992.62 as compared with \$219.19 at the end of 1925.

"Saskatchewan's swine population—539,601 head—is the fourth largest in the Dominion," stated Mr. Robertson.

"While eight of the nine provinces showed heavy decreases in 1925—Saskatchewan's decline in swine population being almost one-third—a marked improvement was recorded in 1926 when six provinces registered increases. Saskatchewan, however, showed an increase of 11,272 hogs during the year.

"With the average price for select bacon hogs on the Winnipeg market showing an increase of \$1.17 per 100 pounds in 1926 as compared with the preceding year, the swine industry completed a very successful year. It is interesting to note that the average price for hogs during the last two years was from 50 to 75 per cent above pre-war prices. Hogs can be raised at a profit under these conditions."

In the slave markets of the older days women who could blush prettily always brought a higher price than their less accomplished sisters.

Many a fool has drawn a golden prize where wise men drew only blanks.

Honey is Valuable Food

Various Ways in Which It May be Used

Honey sweetens life in many ways. This is apparent when we see the various uses to which it is put. Formerly it was used mainly as a spread on bread, but today there are a great number of other ways of using it to vary one's menu. Though the best way to serve honey is in its natural or raw form in desserts, as a sweetener, it is used to a large extent in cooking both in the baking of cakes and in the making of bread to which it imparts the property of keeping fresh for a long time—this is a point which all good housewives should note.

Besides this it is used in the making of candies, both as a centre which is chocolate coated and as an ingredient in the many other kinds of sweets, for which recipes are to be found in all good cook books.

A very appetizing new spread is now manufactured by incorporating honey with peanut butter to make what is called "Honey-nut Butter."

Apart from eating, honey is of great use, it is used to make most excellent vinegar, said by many to be equal to the best produced.

The motorist too may sweeten his temper by the use of it as an antidote. It has been found that equal parts of honey, water and alcohol make a mixture that has proved very satisfactory to some who have taken the proper precautions to see that all the proper connections are tight, so that no leakage can occur, for places where water cannot pass through honey mixture will.

We can realize the value of honey as a natural food when we see some of the large breakfast food manufacturers now advertising on all packages of cereals put out by them the use of it as a sweetener. A. H. W. Birch, Central Experimental Farm, Ottawa—Experimental Farms Note.

Is World Drifting Toward War

Notes British Economist Offers Solution for Impending Trouble

Abandonment of selfish national interests and a return to a search for the common good was the solution offered in an address in Montreal recently by Sir George Paish, noted British economist, to the question "Can Millarism be Effectively Destroyed?" Sir George's greatest hope was to be found in the League of Nations, to which he believed every nation in the world would eventually belong. Before that time, however, he felt that the majority of the nations would be the strength of their united purpose bring peace to a war-weary world.

He declared the world was rapidly drifting toward a conflict more devastating than that which started in 1914. To avoid it, would require on the part of all nations, sympathy and understanding of their mutual aims and aspirations, and qualities which he had never before brought to the solution of their problems.

Sir George advocated cancellation of German reparations payments, and war debts.

"It is, in my judgment, immoral for any nation to demand payment of war debts," he said.

Canada Achieves International Renown For High Quality Of Its Vegetable Products

Value of Good Dairy Cow

Record Should be Carefully Studied Before Making Purchase

How much can a farmer afford to pay for a good dairy cow, and what valuation should be placed on his good producers? This question is asked in the latest bulletin of the Illinois-Frisian Association and an attempt is made to answer it on the basis of figures obtained from the records of 40 Iowa Cow Testing associations for a full year completed last year.

A summary and average of the 7,654 cows, which complete year's records were kept showed that the profits after paying all feed costs, varied from \$17 to \$191. The cows which produced an average of only 100 lbs. butterfat in a year required only \$35.57 worth of feed, while those producing an average of 500 lbs. butterfat had a feed bill of \$93.71. In spite of the higher feed cost, the 500-lb producers made a profit over feed cost of \$91.72, while the 100-lb producers returned only \$17.22 after paying the feed bill. The records of cows between the 100-lb and 500-lb producers showed that the profits increased as production increased, even though the feed bill grew steadily larger. Those of 300-lb butterfat showed \$38 profit; those producing only 200 lbs. showed only \$35 profit.

From these records it may be concluded that, in some instances, \$200 may not be enough for a good dairy cow, and that even \$50 might be too much for another. The good cow may return twice as much for every dollar of feed she eats as will the poor cow. When the whole life-time production of a cow is considered, one good cow, well fed, may be worth a whole herd of inferior producers. The lessons from such records should be carefully studied by every dairy farmer who wishes to make a success of his business.

Nearest to Europe

Newfoundland, the oldest British colony, is the part of North America nearest to Europe. Cape Race, the southeastern point of Newfoundland, is less than 1,700 miles from Cape Clear, Ireland. At the north west, Newfoundland is separated from the mainland or Labrador by the Strait of Belle Isle, which is only 12 miles wide. Newfoundland has an area of 12,724 square miles.

Winner Naturally Spotted

Two Englishmen were out tiding in India when suddenly a native dashed out from the jungle, running for his life and hotly pursued by a gigantic leopard.

"He's making a race for it," remarked one of the Englishmen. "Dye things you can spot the winner!"

"The winner," came the dry retort, "is spotted!"

A cold snap is a soft snap—for the cold dealer.

It is easier to stand prosperity than it is to have a chance to try.

Canada Achieves International Renown For High Quality Of Its Vegetable Products

Justified publicity was given to the fact that at the American Vegetable Growers' Annual Show held recently at Cleveland, Ohio, in which eleven states competed, the cauliflower championship of the North American continent was won by a market gardener from Manitoba. Kliff de Jogg, who came to the province from Holland some twenty years ago. At the same meeting, in the same keen competition, the North American celery championship was awarded James Little, of St. Catharines, Ontario. Two such outstanding awards are sufficiently indicative of the Dominion's ability to produce superior vegetables.

Certain sections of Canada have achieved an international renown for their vegetable products. The Maritime Provinces' potato, for instance, is widely demanded all over the American continent and travels in some volume to Cuba, Bermuda, British Guiana, Barbados, Jamaica, British West Indies and other countries. On the other side of the Dominion the Pacific coast province of British Columbia is creating the same reputation and seems destined to develop as wide a market. Recently an order for one hundred cartons of potatoes was received by the Provincial Growers' Association. The same province of British Columbia is known as a producer of onions, with about 1,555 acres devoted to this crop of which 1,900 acres are in the Okanagan Valley. Practically every variety of fruit and vegetable is produced in British Columbia on a large scale.

The Canadian potato crop of 1925 is estimated to be 43,130,000 cwt., as compared with 42,875,000 cwt. in 1924, contributed as follows:—Prince Edward Island, 3,405,000 cwt.; Nova Scotia, 2,853,000; New Brunswick, 4,321,000; Quebec, 13,769,000; Ontario, 11,910,000; Manitoba, 2,248,000; Saskatchewan, 3,015,000; Alberta, 2,761,000; and British Columbia, 1,855,000 cwt. The onion crop of Ontario is estimated, will amount to 740 cars, and that of British Columbia, 820 cars, 110 cars of the latter being available for export.

Largest Yielding Hay Crop

Canadian Grown Alfalfa Seed Better Than the Imported Article

Alfalfa is the largest yielding hay crop grown on the Central Experimental Farm at Ottawa and points out the Minister of Agriculture in his latest report, is easily grown on soils suited to it. It is a hardy plant, grows the important fact that Canadian grown alfalfa seed gives many better results than those obtained from imported seed.

Still dealing with the work of the Field Husbandry division at the farm, the Minister says that comparing sunflowers with corn for silage it has been found that on sandy soil corn gives a yield of actual dry matter slightly larger than sunflowers, but that because it is easier to handle and makes slightly superior silage, corn is to be preferred wherever it will grow satisfactorily. However, on heavy clay soils where the sunflowers are better, they are better than corn and for that reason possess some advantages on such soil.

Prescription for Success

Dr. William Osler's prescription for success in doing the daily job will appeal to many harassed souls: "Banish the future, live only for the hour and its allotted work. Think not of the amount to be accomplished, the difficulties to be overcome, or the end to be attained, but set earnestly at the little task at your elbow, letting that be sufficient for the day."

An Underground Wonder

At the present time station work under construction beneath Piccadilly Circus, London, an area of 15,000 sq. ft. will be devoted to the booking hall alone. This necessitates the removal of about 10,000 tons of London clay. When completed the station will be able to handle 50,000 passengers annually.

Governor of Prison—No. 59, his Majesty has been pleased to commute your sentence to penal servitude for life.

Condemned Man—Well, sir, they say no more is good news, and I'm hanged if it isn't.

Reformer—Young man, do you know of the pitfalls of the wicked city?

Harold—Yes sir, I fell down a manhole once.

Only the man whose money hangs in his pocket has money to burn.

An Economic Factor

Saskatchewan University Professor Believes in Co-operation

Professor W. W. Swanson, head of the Department of Economics of the University of Saskatchewan, speaking before the Moose Jaw Board of Trade recently said: "Among the economic factors shaping the development of Saskatchewan and of the West in general at the present time, the most outstanding, or at least the most significant in its accomplishments and promise, is the Wheat Pool. Farmers are only beginning to plumb the depths of co-operation, and when they have learned properly to utilize its tremendous power the economic and cultural standards of the Province will be substantially raised."

A man was going home one day when a bus drove up near where he was standing.

"I suppose your 'Noah's Ark' is full?" he cried to the conductor.

"All except for the ass; jump in," was the conductor's quick reply.

One's grace, we note, depends upon one's polo and balance, icy sidewalks in that event may be regarded as A-1 promoters of grace.

A damp cloth slipped in bathing soda will remove tea and coffee stains from china cups.

A Smart Dress With Slenderizing Lines

Charmingly simple is this attractive daytime dress with its slenderizing lines. The bodice has a deep V-front and new waist, while the long darts, sleeves are finished with straight cuffs. There are pockets at each side front and the back is slightly flared, thereby allowing for the necessary skirt fullness. The belt conceals the join of the bodice and skirt at the back and is fastened with buttons at the top of the pleats in front. No. 1438 is for ladies and is in sizes 34, 36, 38, 40, 42, 44 and 46 inches bust. Size 36 requires 4 yards 39-inch material, or 3 1/2 yards 57-inch, and 3/4 yard 36-inch contrasting material for vest and collar. Price 29 cents the pattern.

Every woman's desire is to achieve that smart different appearance which draws favorable comment from the observing public. The designs illustrated in our new Fashion Book are orientated in the heart of the style centres and will help you to acquire that much desired air of individuality. Price of the book 10 cents the copy.

Premier Bruce at Winnipeg

Re. Hon. R. M. Bruce, Prime Minister of Australia, and Mrs. Bruce, shown alighting from a Canadian Pacific train at Winnipeg on the way to visit his ship at Vancouver for Australia. Premier Bruce travelled across Canada in winter in contrast to the belief of summer which he will enjoy when he gets back to his native land about the end of January. From left to right: Major Patrick McInnes, aide-de-camp to the Lieutenant-Governor; Mrs. Stanley M. Bruce; Hon. T. A. Burrows, Lieutenant-Governor of Manitoba; Inspector Bruce and Mayor Webb of Winnipeg.

Reformer—Young man, do you know of the pitfalls of the wicked city?

Harold—Yes sir, I fell down a manhole once.

Only the man whose money hangs in his pocket has money to burn.

In Considering Your PRINTING REQUIREMENTS for 1927 REMEMBER

Our Work is equal to that produced anywhere.
It is better than some jobs a certain firm sold in Coleman at higher prices than ours.
We give you as good a Service as we are able to give.
As we are in Coleman, we can give you better service than anyone else can give you.
As we must look to you for future business you will not be dissatisfied if we can avoid it.
Our prices are based on Calgary prices--one of the lowest priced cities on the continent.
When you deal with us you do not do so at a loss to yourself.
When you deal with us the profit is used to give you better service in the future.

Sir Henry Francis Oliver, Commander of the Atlantic Fleet, who is expected to succeed Earl Beatty as First Sea Lord.

A. Booth, of Calgary, is offering some splendid meat bargains in his advt. this week. Read his advt.

Here and There

The Beethoven manuscript sonata in F major has been sold in London, England, for \$100, and the Bach organ prelude for \$75.00.

Bachelors in Rome between 25 and 65 are to be taxed to provide funds for the National Maternity fund and Child Welfare scheme.

Canadian apples are now on sale in Paris, France, in the central market and in the shops. Shop window displays of the fruit are reported to have aroused quite a wave of admiration.

Alberta's visible coal supply is about 57 billion tons, Premier Brownlie declares. With the possible exception of China, Alberta has the greatest coal deposits in the world. The annual production from the province averages around 6,000,000 to 6,500,000 tons.

Valued at nearly \$8,000, twelve silver black foxes in six crates arrived at Canadian Pacific Express Company's yards in Montreal recently for shipment by S.S. Berwyn from Saint John January 1st. They are from the Agnew Silver Fox Farm, Barry, Ont., and represent the first shipment to leave Canada in 1927.

According to the financial statement of the Canadian Pacific Railway Company for the eleven months ended November 30, the net profits of the Company were \$43,228,944.06, an increase over the net profits for the corresponding period of 1926 of \$8,000,960.23. For the month of November the net profits of the Company were \$6,740,722.72, an increase of \$501,587.90 over November of 1925.

An air mail service for Canada is likely. The Hon. P. J. Veniot, Postmaster-General, remarked in an interview that the Postal Department at Ottawa are following with keen interest the successful activities of the United States air service and that something similar may be started in this country shortly. Definite announcement one way or the other would be made early in the New Year, said Mr. Veniot.

Northern Ontario has 2,600,000 square miles of mineral lands, of which only 7 per cent. has been exploited; and yet this seven per cent. has already produced metals to the value of a billion dollars. Such was the summing up of George C. Baleman, Secretary of the Ontario Mining Association, speaking before the Engineers' Club. "Twenty years ago," he reminded his hearers, "Northern Ontario was practically an unknown wilderness. Today it is the centre of a large and growing industry."

A combined service to the Canadian-Pacific Railway Company of 140 years was terminated January 1st with the retirement from the activities of travelling passenger agents of Henry R. Ibbotson, Ambrose E. Lalonde and James McKenna. The official record of the Company indicates that these three well-known officials have served respectively, 44, 53 and 43 years in the employ of the Company. The railway careers of these men began in each case during the construction of the Canadian Pacific line from the north shore of Lake Superior west to the Pacific Coast.
